

**FIREWORKS FOR PRISONS**

# **NOISE DEMO**

**IN SOLIDARITY AND ATTACK**

**Prison is nothing more than a reflection of the society in which we live. It is a daily threat and reality that has permeated every facet of society. In the streets, prisons, psychiatric institutions, detention centres there are those who do not come to peace with their exploitation. We desire to stand with comrades and accomplices who refuse to accept this reality, who refuse to be defeated by the System, who taste freedom in the ashes of prisons. We want to shed our fear and together confront the prison apparatus. We want to expand our solidarity in struggle against prison. We want people to join us and directly confront the systems of social control. We want to be everything prison isn't: autonomous, joyful, creative...**

*...so we will always be uncontrollable*
